Course Description: This two-hour Live Webinar Lecture will discuss the addictive nature, abuse, and proper prescribing of opioids in a dental practice. For centuries opioids have been used to control pain and suffering, but at what cost to us, our families, and our dental practices? What are our alternatives for controlling post-operative pain?

At the conclusion of this course, the attendees will know:

1. How to combine analgesics to maximize post-operative pain control
2. Appropriate clinical use of the opioid and non-opioid analgesics
3. What you need to know when prescribing opioid analgesics
4. What a PDMP is and the regulations for using the PDMP in Virginia

This webinar will include information that fulfills the Virginia Board of Dentistry requirement on ‘pain management’ for prescribers of drugs schedule II-IV (Regulation 18VAC60-21-106) that states 2 hours of CE on pain management is required every two years.

*Once your registration is received, you will be sent a confirmation email from GoToWebinar along with a link for course participation. Please save this email for logging into the Webinar on October 2nd at 9:00 am. Attendees will receive their CE certificate within 2-3 business days. ***IT IS IMPORTANT THAT YOUR EMAIL IS LEGIBLE.***
